This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

To meet diverse data center power requirements under different grid conditions, we provide flexible and reliable energy storage solutions. Our portfolio covers dynamic capacity expansion in on-grid ...

Perfect for factories, data centers, EV charging stations, and microgrids, this plug-and-play ESS cabinet provides peak shaving, backup power, and renewable energy optimization --all in a compact, easy ...

The 100 kWh battery system is designed in a cabinet. It can protect the battery system well and also isolate the high voltage battery from the outside to reduce the safety risk.

100kWh outdoor battery ESS cabinet BC100DE, integrated with a CATL LFP battery solution, provides safe energy storage and management of power generation output. BC100DE is specifically designed ...

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

As the leading vertically integrated manufacturer of lithium iron phosphate battery systems, GSL ENERGY has provided various battery solutions for nearly all kinds of ESS applications.

The BF100 is a DC-coupled battery cabinet for commercial and industrial energy storage. With the capacity of 71, 86, 100 kWh it can seamlessly work with Autarco hybrid inverters to achieve high ...

The ESS HV 50KW+100KWH is a fully integrated, modular battery storage system. Designed for C& I applications, it combines a PCS, BMS, LiFePO4 batteries, and EMS into a single, sleek cabinet to ...

100kWh Battery Cabinet for Canadian Data Center

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...
