The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

Designed for demanding industrial applications, off-grid setups, and solar-powered infrastructures, it combines a 100kW hybrid inverter, 207kWh of scalable LiFePO₄ batteries, and intelligent EMS in a ...

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

The HighJoule 100KWh Outdoor Cabinet Series supports RS485, CAN, Ethernet, and Modbus protocols for real-time data transmission. The integrated EMS platform allows for remote monitoring and ...

The PCS can either synchronize with the generator's grid or allow the generator to synchronize with the storage grid. This flexibility ensures a high-quality power supply by responding to load power ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO₄ battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

100kWh Power Storage Cabinet for Northwest Microgrid

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications. Individual pricing for large scale projects and ...
