One of our most popular AC power supplies is the Blue Whale BWFCM series solid state/static frequency converter, which is designed to convert AC power from 50Hz to 60Hz or vice versa, or to ...

Wide operating temperature range, -0°C to +50°C. This is a universal input industrial quality AC/AC frequency converter which uses high frequency PWM technology to generate the ...

The DC/AC power inverter can be useful anywhere where you do not have mains outlet, for example a car, trailer or cottage. It can power mains appliances like radios, tape recorders, DVD players, ...

The power inverter can convert DC power (battery, accumulator jar) into AC power (sinusoidal wave of 220V and 50 Hz), and the frequency can also be adjusted. The frequency inverter can convert the ...

GoHz Inc is a manufacturers-based online shop in AC power supply industry to provide solutions for changing regular grid power frequency (50 Hz, 60 Hz), DC power source to adjustable frequency & ...

These inverters are designed to power devices for use outside the United States that require 230 volts at 50 Hz. With export options in modified sine wave and pure sine wave in multiple sizes we have what ...

The frequency inverter converts a basic fixed frequency (50Hz/60Hz), fixed voltage (220V/380V/480V etc.) to a variable frequency (maximum frequency up to 400Hz), variable voltage (maximum voltage ...

Buy frequency converters to change 110v/120v 60Hz to 208v/220V/230V/240V 50Hz by built-in transformer, up to 400Hz, convert fixed Hertz to variable Hz power supply.

With this Converter, you can protect your equipment from most power issues, including power sags, power surges, brownouts, and line noise.

These 50Hz to 60Hz frequency converters are designed to supply 3 phase alternating current (AC) critical

50hz AC inverter

loads with high stability 50Hz or 60Hz frequency from a 50Hz or 60Hz input power source.
