The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid. In a strong ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Aimed at enhancing grid reliability in the metropolitan area of Buenos Aires (AMBA), this \$500 million initiative marks one of the country's most significant moves toward integrating large ...

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban ...

The Argentinian Ministry of Energy has launched the "AlmaGBA" Battery Energy Storage System (BESS) tender, aiming to deploy 500MW (4-hour duration, totaling 2GWh) to address ...

Argentina's landmark AlmaGBA Initiative presents a replicable model for enhancing grid resilience through commercial & industrial (C&I) storage. It outlines financing mechanisms & policies ...

Argentina's \$540 Million Bet on Battery Storage: A Blueprint for Grid Resilience? Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), ...

With an estimated US\$500 million investment and an execution timeline of 12 to 18 months, the project aims to enhance energy reliability, particularly during peak demand.

Argentina's main renewable energy association will formally incorporate energy storage into its name, reflecting the rapid growth of battery systems. Its president says the upcoming AlmaSADI ...

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage
