On January 23rd, 2026, Samsung C& T Renewable Energy Australia (SREA), Samsung C& T's renewable energy subsidiary in Australia, accomplished the first tangible milestone in its solar ...

Billion Watts is advancing six additional solar-storage projects in Victoria and New South Wales. The sub-5MW segment is particularly attractive as such projects connect at the distribution...

Sydney, Australia - 14 August 2025 - Clean energy solutions provider Gentari yesterday marked the groundbreaking of the Maryvale Solar & Energy Storage project (Project Maryvale), a key milestone ...

Adelaide-based developer and construction company Green Gold Energy (GGE) confirmed it has secured development approval for its Australia Plains Solar Farm and battery energy ...

Chasing its ambition of adding 12 GW of renewables and firming capacity by 2035, the Australian Gas Light Company (AGL) Energy has acquired the Yadnarie solar and long-duration ...

Listed below are the five largest energy storage projects by capacity in Australia, according to GlobalData's power database. GlobalData uses proprietary data and analytics to ...

The record-breaking growth in Australia's solar PV and energy storage pipeline is a significant boost to the country's energy transition. As the pipeline continues to grow, it will be crucial ...

Australia's solar and energy storage sectors delivered strong performance during the third quarter of 2025, with grid-scale solar generation reaching 1,699MW average output while battery...

Discover five energy storage projects revolutionizing Australia's energy landscape. Learn about innovative technologies, impressive capacity.

# Australian photovoltaic energy storage project

Located in Queensland's Central Renewable Energy Zone (REZ), the project combines Elements Green's global development expertise with SMA's advanced grid-forming and solar inverter ...
