What is CAT5 solar?

Cat5 Solar delivers proprietary, turn-key lightweight energy solutions which are intelligent, bankable and sustainable. Most of our energy products and solutions can be implemented immediately wherever they are needed.

What makes CAT5 different?

Cat5 stands above its competitors by combining a full suite of solar PV, and battery storage solutions, which can deliver energy 24 hours per day in both small-scale and large-scale formats. In addition to traditional support to established electrical networks, Cat5 excels where no electrical grid exists.

Why should you choose CAT5?

Most of our energy products and solutions can be implemented immediately wherever they are needed. Cat5 stands above its competitors by combining a full suite of solar PV, and battery storage solutions, which can deliver energy 24 hours per day in both small-scale and large-scale formats.
