Outdoor energy storage cabinet integrates energy storage battery, modular PCS, energy management monitoring system, power distribution system, environmental control system and fire control system.

500kW power output with modular design, supporting expansion up to ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kWh battery storage requirement.

Feature highlights: The Outdoor Cabinet ESS Energy Storage System offers versatile configurations with 100KWH to 500KWH storage capacities and 50KW to 500KW PCS inverters, supporting LiFePO4 ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems.
