Features Safe and Reliable · IP66 protection and C5 anti-corrosion rating · Type II SPD, for both DC and AC sides · Accurate string current detection

o Up to 16 MPPTs with max. efficiency 99% o 20A per string, compatible with 500Wp+ module o Data exchange with tracker system, improving yield

Multi-mppt string inverters from Sungrow, sg350hx, are proven safe for 24h real-time AC and DC insulation monitoring and reach a high yield of 99% at a low cost.

The 350kW high power CPS three-phase string inverters are designed for ground-mount applications. The units are high performance, advanced and reliable inverters designed specifically for the North ...

SG350HX-US Sunrow offers solar inverters with a high efficiency of over 99%, ranging from 450W to 8.8 MW. Besides, Sunrow PV inverters can be converted on any desired scale.

The independent original design solves the switch current capacity bottleneck of 210 large-module multi-parallel systems. The product design features a significant breaking capacity buffer, capable of ...

PDP SGHX-SG320/350HX by Sunrow provides high efficiency, proven reliability, and advanced features to meet diverse clean energy needs.

High reliability · Cooling fan with IP68 protection level · Integrated string monitoring function · Standard connection terminal for quick installation

SP-350K-H1 SP Series String Inverter More power generation Max. efficiency 99%, Euro efficiency 98.8% 12MPPTs for tracking maximum PV power Supports bifacial PV modules with max. PV current 22.5A
