The solar battery bank will be useful when the sun is not available and solar panels are not generating electricity. If power from the battery bank is also not sufficient, the MIRROR Hybrid Solar Air Conditioner ...

Part of our product offerings include an AI-based system which can reduce the energy used by air conditioning systems in commercial and residential installations by 25% on inverter-based energy ...

With seamless integration of solar energy and grid power, our air conditioners deliver optimal performance even in low sunlight conditions, ensuring uninterrupted comfort throughout the day.

We focus on international quality air-conditioning and refrigeration units for industrial, commercial and domestic use. Our market coverage includes both Mauritius and Rodrigues.

Solar panels generate electricity from sunlight, reducing reliance on grid electricity. Over time, this can lead to significant savings on your utility bills and makes you worry less about rising oil and gas prices.

Future solar projects in Mauritius might face significant problems due to rising sea levels. The sustainability and success of the nation's solar energy efforts depend on careful planning, robust ...
