What is a mobile solar light tower?

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs.

What is commercial solar powered portable lighting?

Commercial solar powered portable lighting is an efficient way to drastically decrease electricity bills. Our 100% off-grid system helps you save big money as it does not require trenching and has low maintenance costs for temporary construction lighting. Greenshine has more than 30 years of experience in offering portable led light towers.

How do solar powered temporary lights work?

Using commercial solar powered temporary lighting is an efficient way to reduce electricity bills to zero. Our 100% off-grid system helps you save big as it does not require trenching and has low maintenance costs over time. HOW DO SOLAR PORTABLE LIGHTS WORK? During the day, photons strike the photovoltaic solar panel.

Why should you choose a portable solar light tower?

Less maintenance means less time and money spent on temporary lighting for construction sites. Our portable solar light towers are constructed with mono-crystalline panels that are the most efficient on the market today (20% of total possible power), surpassing poly-crystalline (rated at 15% efficiency).

Our LED solar light towers offer complete off-grid functionality with the convenience of built in trailer transport & easy setup. Browse our selection or talk with an expert.
