Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

Thanks to foldable solar arrays, the container is rapidly deployable -- operating within hours to support power needs across diverse scenarios. Built for longevity, the SolaraBox solar container is built to ...

The containerized format provides a complete, self-contained power plant that deploys quickly, operates autonomously, and withstands harsh environments including extreme cold down to -40°C.

Mobile solar containers enable total off-grid operation, providing power in locations with no utility grid or where grid access is unreliable. This is essential for rural development projects, ...

Mobile solar powered refrigerated container for reliable off-grid cooling of food, farm produce, and medical supplies.

Solarfold(TM) features a patented dual-rail guiding mechanism, 40% higher energy density, automated deployment in under 6 hours, and superior weather resistance. Unlike traditional solar containers, ...

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, refrigeration and freezing capacity, ...

Our solar-powered refrigerated containers are carefully packaged and shipped to ensure safe delivery. Available in 20ft and 40ft sizes, these units are designed for efficient cold storage and easy ...
