Purcell makes the decision easy, by offering specially engineered families of standard, modular, and configurable equipment cabinets to fit every deployment scenario.

The Integritas Industrial DC Power System family combines AC/DC power conversion, battery charging, and power distribution into an integrated package.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Built for rugged environments, each IP55-rated enclosure integrates AC/DC coupling, transfer relays, and optional fire suppression. The L3-HVR is ideal for peak shaving, EV integration, and larger ...

Meticulously designed to deliver unparalleled reliability, efficiency, and high performance, our cabinets cater to diverse industries such as microgrids, renewable energy, and energy storage. Experience ...

Our solar battery cabinet systems are storing Pylontech lithium-iron phosphate (LiFePO) batteries, in particular the US3000C rack mounted battery modules. We install these in a purpose built cabinet ...

Elecod commercial and industrial power conversion system (PCS) capacity from 50kW to 1000kW, energy storage system capacity from 100kWh to 2MWh.

HBOWA integrates units such as inverters, lithium battery packs, fire protection systems, and monitoring into an energy storage cabinet.

Siemens Energy fully integrated Battery Energy Storage System (BESS) combines advanced components like battery systems, inverters, transformers, and medium voltage switchgear with ...

Modular battery cabinets for Guinea virtual power plants AC DC integrated

With an all-in-one design for both AC and DC components, these systems are factory pre-assembled and tested, eliminating the need for complex on-site PCS installation or wiring.
