With parts of the plant already operational and expansion underway, Namibia is firmly on track to meet its ambitious renewable energy targets. As the country continues to invest in renewable ...

Upon completion, the power station is expected to make a notable contribution to Namibia's energy mix by increasing the share of renewable energy, reducing dependency on ...

The proposed project forms part of Namibia's broader commitment to increasing the contribution of renewable energy to the national electricity mix, enhancing energy security, and reducing reliance on ...

The United Nations Namibia House has adopted solar power through the installation of a 104kWp photovoltaic system. The rise of renewable energy sectors opens new job opportunities and ...

The solar power plant is anticipated to commence commercial operations in the second quarter of 2026, significantly contributing to Namibia's energy mix. By harnessing solar power, ...

This project not only helps Namibia meet its energy demands but also aligns with regional trends toward solar and wind development, positioning the country as a key player in ...

Open International Bidding | G/OIB/NPWR - 03/2026 NamPower is launching the procurement of six (6) × 20 MW Solar Photovoltaic (PV) Independent Power Producer (IPP) projects, ...

National power utility company NamPower has broken ground on the largest solar project in Namibia, a 100-MW facility in the southern part of the country.

The solar farm is designed to comprise 33,000 ground-mounted solar panels, 100 inverters and related hardware. The solar panels are mounted on 67 single-axis trackers which tilt the attached panels to ...

SummaryLocationOverviewConstruction, costs and timelineOther considerationsThe Khan Solar Power

Namibia solar power

Station, is a 20 megawatts (27,000 hp) solar power plant under construction in Namibia. The project is owned and under development by Access Aussenkehr Solar One Namibia a Namibian independent power producer (IPP), based in Windhoek, the country's capital city. The energy generated here will be purchased by NamPower, the national electricity utility company, which is wholly owned by the government of Namibia. A 25-year power purchase agreement (PPA), governs the terms ...

Namibia has commenced building its largest solar facility, Sores|Gaib, to reduce its reliance on energy imports by utilising its significant solar capability, which is regarded as one of the highest ...
