---

Recently, CORNEX New Energy Co., Ltd. signed a comprehensive strategic cooperation agreement with Bayannur Energy (Group) Co., Ltd. (hereinafter referred to as "Baneng Group"). ...

The collaboration aims to support Saudi Arabia's Vision 2030 energy transition strategy and jointly explore the rapidly growing Middle East energy storage market. Under the agreement, ...

NLR has unique capabilities to conduct megawatt-scale research on hydrogen generation, energy storage, power production, and distribution. Researchers focus on hydrogen ...

High-energy lithium-ion systems, quasi-solid-state configurations and sodium-ion batteries were among the main strategies pursued in 2025 to achieve that goal. The importance of ...

NLR's multidisciplinary research, development, demonstration, and deployment drives technological innovation and commercialization of integrated energy conversion and storage solutions.

These multi-institution research teams, led by Argonne National Laboratory and Stanford University, will develop scientific concepts and understanding to impact decarbonization of ...

This study proposes a comprehensive optimization strategy for multi-agent integrated energy systems incorporating community shared energy storage (CES), aiming to enhance system ...

"ESRA creates an energy storage research ecosystem with the mission to rapidly innovate, shorten the time between basic discovery and technology development, and train the next-generation workforce," ...

Opportunities and challenges for cooperation in deploying energy storage 6/25/24 Eric Hsieh Deputy Assistant Secretary for Energy Storage

To meet those challenges, ESRA is organized around three scientific thrusts and three crosscutting endeavors to create a new paradigm where cutting edge tools combine with data science and ...
