What are bmarko structures TM Power Distribution Centers (PDC)?

BMarko Structures (TM) Power Distribution Centers (PDC) are custom designed for each individual project. Our prefabricated PDC buildings can be delivered to the job site for the switchgear equipment to be installed at its final location or may be delivered with the equipment installed beforehand.

Why should you choose a prefabricated power distribution center?

We deliver advantages that other producers just can't match: Prefabricated power distribution centers offer a ready-to-use,plug-and-play solution by lowering lead times by up to 50 percentcompared to conventional stick-built construction. For civil engineering,these PDC buildings do not require complex techniques.
