How are refrigeration display cases & cabinets evolving in commercial refrigeration?

Refrigerated display cases & cabinets are evolving in commercial refrigeration due to refrigerant transitions and energy regulations. Boyard designs and manufactures compressors and condensing units which are leaders in the industry with high efficiency.

What is a self-contained refrigerator display case?

Self-Contained Refrigerated Display Cases are designed to keep the focus on things most important to your bottom line. Enhanced merchandise visibility, high energy efficiency, and merchandising flexibility have all merged in an attractive, modular design.

What is a multideck refrigerated display cabinet?

The multidecks are large capacity reach-in commercial refrigerated display cabinets for self-service. They account for almost 70% of FREOR's sold refrigeration equipment and are the most popular form of display cabinet for merchandising of refrigerated products for the majority of stores.

What is a multideck refrigeration system?

Our manufactured multidecks are multiplexable and can be easily formed into side-to-side lines or back-to-back islands, which make it a flexible refrigeration solution for any store layout. FREOR refrigerated cabinets can operate on a broad range of refrigerants, including nature-friendly coolants propane (R290) and CO₂.
