Support Female DC Jack, Temperature, Short Circuit & Overcharge Protection. Need help?

We specialize in providing high-performance lithium-ion smart batteries tailored for OEMs. Our batteries are designed with exceptional reliability, durability, and safety in mind, making them ideal for ...

A smart battery is a rechargeable battery pack with a built-in Battery Management System (BMS). This system allows the battery to monitor and manage its performance, ensuring optimal ...

Discover smart battery packs with BMS protection, fast charging, and custom options for solar systems and drones.

A smart lithium-ion battery pack consists of three main components: specialized battery cells (such as Li-Ion, Li-Poly, or NiMH), an intelligent Battery Management System (BMS), and ...

Experience smart Li-polymer battery packs with personalized and ruggedized designs. Reliable power for mobile devices with large innovative battery packaging solutions.

Li-ion smart battery packs engineered for today's portable equipment, featuring SMBus/CANbus/I2C communication, fuel gauging, protection, and custom charging.

Internally, a smart battery can measure voltage and current, and deduce charge level and SoH (State of Health) parameters, indicating the state of the cells. Externally, a smart battery can communicate ...

A smart battery or a smart battery pack is a rechargeable battery pack with a built-in battery management system (BMS), usually designed for use in a portable computer such as a laptop. In addition to the usual positive and negative terminals, a smart battery has two or more terminals to connect to the BMS; typically the negative terminal is also used as BMS "ground"; BMS interface examples are: SMBus, PMBus,

Smart pack battery

Smart lithium-ion batteries, with integrated Battery Management Systems, deliver high performance, safety, and reliability. Their advanced control mechanisms and data management ...

A Smart Li Polymer Battery Pack is a type of rechargeable battery that uses lithium polymer as its electrolyte. It is known for its high energy density, lightweight design, and longer lifespan compared ...
