Support driving single-phase motor and three phase 220V motor. One pump inverter can be connected with multiple, support vector control. Protection class IP65 and fanless system design, with ...

It has a high efficiency of up to 99% to ensure maximum energy conversion for your pumping needs. Additionally, it features an IP65 waterproof rating, providing reliable protection against dust and water.

INVT GD100-PV solar pump inverter is specially designed for photovoltaic (PV) water pump systems. It is suitable for agricultural irrigation, water supply in mountainous areas, desert control, and other ...

This inverter uses "either" solar or AC input source to power load. Please remember to NEVER connect both power sources (solar and AC input) at the same time as this will result in instantaneous damage ...

It has a high efficiency of up to 99% to ensure maximum energy ...

Ideal for solar systems, the solar VFD ensures stable pump performance for agricultural irrigation and domestic, and industrial water supply. Choose us today and step into the smart water supply era!

We're professional solar inverter water pump manufacturers and suppliers in China, providing customized service with low price. We warmly welcome you to buy discount solar inverter water ...

Harnessing solar energy to power water pumps requires reliable and efficient inverters that convert solar DC power into usable AC power. Below is a curated selection of the best solar ...

Ideal for farms, gardens, rural water supply, and livestock watering, the SP1 Series offers a cost-effective and low-maintenance solution for solar water pumping.

Optimize your solar system with the 1100W Solar Pump Inverter AC Single Phase 220/230/240V -

Solar water pump inverter single purchase

GLP1K1LS for efficient water pumping. Order now!

VEICHI, one of the leading solar water pumping inverter manufacturers, provides SI32, SI23, SI21 and SI30 high performance and eco-friendly automatic solar water pump controller at wholesale price.
