Ameresco has announced the development and commercial operation of a 50MW/200MWh BESS project in Arizona. Ameresco claims it is the largest behind-the-meter (BTM) ...

Ameresco, Inc. has announced the development and commercial operation of its 50MW/200MWh battery energy storage system (BESS)--the largest behind-the-meter (BTM) project ...

With a rated output of 120 MW and a storage capacity of 240 MWh, the Jingjiang Special Steel project is now the largest customer-sited installation of its kind in Jiangsu.

The project, Gigawatt 1 &#174;, includes the largest behind-the-meter solar plus battery project in the world and will create more than 1,000 new jobs.

Advancing the cause of sustainability, Irvine Ranch Water District (IRWD) and Macquarie Capital today announced completion of the nation's largest energy storage system being used for on-site power - ...

Pacifico is building its GW Ranch project in Pecos County, Texas, as a behind-the-meter generation facility for data centers specializing in artificial intelligence development.

A new \$51 million Tesla Megapack battery energy storage system is now operational in Kingman, Arizona. Developed by Ameresco, Inc., the 50 MW/200 MWh installation is the largest ...

Discover the largest battery storage projects in the U.S. for 2025, including Darden, Bellefield, and Swiftsure.

Upon completion in 2022, this system, sized at 20 MW/40 MWh, is believed to be the largest behind-the-meter BESS in North America, based on publicly available data.

Ameresco recently announced the development and commercial operation of a 50-MW/200 MWh battery
