The Project to Develop and Equip the Power Transmission Grid (PAERTE) aims to strengthen Tunisia's power grid and allow for greater additions of renewable capacity, specifically wind and solar.

Tunisia has awarded French renewable energy company Voltalia a contract to develop a 132-megawatt solar power project to boost electricity supply in the country.

Solar and wind power projects subject to authorization : Tunisia has granted authorizations for projects with a capacity of 381 MW, including 261 MW of solar PV and 120 MW of wind power.

Tunisia accelerates clean energy transition by awarding large-scale wind and solar projects to global developers under its 1.7GW plan.

As such, Tunisia is actively advancing its renewable energy sector - with a focus on solar power - to diversify energy sources and reduce greenhouse gas emissions in the sector.

Tunisia's ongoing energy transition. As we enter the year 2024, Tunisia's solar energy market stands on the cusp of significant expansion, presenting a Solar Pla

Power Tunisia Plans 2.3 GW of Wind and Solar Tenders in 2026 Tunisia has approved plans to tender more than 2.3 gigawatts (GW) of renewable energy capacity in 2026, marking a significant ...
