Does Bosnia and Herzegovina need a hydropower plant?

Hydropower has historically been the dominant renewable energy source in Bosnia and Herzegovina, and several hydropower plants are in operation. The country has been exploring opportunities to expand its hydropower capacity, but such projects can face environmental and social challenges.

What is the strategy for power generation in Bosnia & Herzegovina?

The strategy for the development of the power generation mix in Bosnia and Herzegovina should be properly positioned within the key strategic goals of the energy trilemma, i.e. security of supply, price acceptability or sustainability (decarbonisation).

What is a strategic goal of Bosnia and Herzegovina?

The basic strategic goal includes accelerated harmonisation of legislation with acquis, that is, transposition and implementation of the obligations assumed under the Treaty establishing the Energy Community. Bosnia and Herzegovina aims at harmonising the energy sector with the Third Energy Package and future EU Directives.

Why is the coal sector important in Bosnia & Herzegovina?

The coal sector is an important segment in the energy sector and economic structure of Bosnia and Herzegovina. Out of total energy potentials of the country, coal covers more than 90%¹⁸ thus currently making a dominant energy potential. About 14 major mines are currently active in Bosnia and Herzegovina.

SDGs only apply to developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter ...

Hydropower provided 29 percent of the country's total electricity production in 2022 and there is room for additional growth. Recently, solar and wind power plants have emerged but remain ...

After the war in Bosnia and Herzegovina, two large hydro power plants were built, HPP Pec Mlini and HPP Mostarsko blato. Their total installed capacity is cca 90 MW.

Which base station energy management system in Bosnia and Herzegovina is more common
